The Committee will be hearing comments about regional water and sewer issues involving increasing efficiencies in the delivery of services, realization of economies of scale through better planning, engineering and administration as well as the important role water and sewer has in Economic Development for our area. We will also accept comments regarding the public water system managed by the City of Asheville along the 3 publicly stated potential study outcomes: 1) The water system remains managed by the City of Asheville; 2) The creation of an independent regional water authority similar to MSD or 3) Merging the water system with MSD creating a regional authority. Please arrive 30 minutes before your time block to sign up to speak. Each speaker will be limited to 3 minutes.
